

## Second Position in Research Drill Competition at 6th Annual SRS Research Conference

Rashid Latif Medical College (RLMC) and Research Cell pleased to highlight the achievement of its students at the **6th Annual SRS Research Conference**, held at **Rehman Medical Institute (RMI), Peshawar**, where **Muhammad Daim Jawaid, Fahad Baig, and Zahra Khan** collectively secured **second position in the Research Drill Competition**.

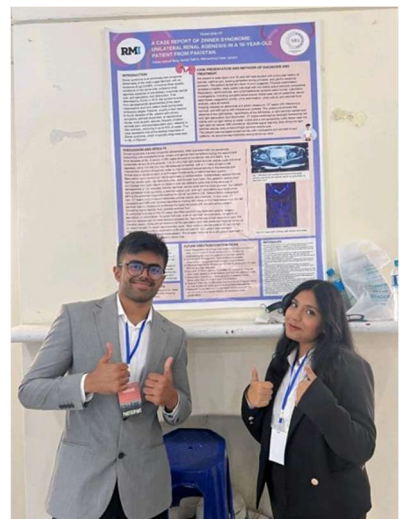

The achievement reflects their teamwork, research skills, and dedication to academic excellence. Their participation provided valuable exposure to a competitive research environment and strengthened their experience in scientific presentation.

The team comprised **Fahad Baig, Muhammad Daim Jawaid, Yahya Azhar, and Zahra Khan**, whose collaborative efforts contributed to this notable achievement. **Fahad Baig** led the team during the competition.

The students also presented research and case reports during the conference, including:

- **“A Case Report of Zinner Syndrome: Unilateral Renal Agenesis in a 19-Year-Old Patient from Pakistan”** — presented by **Fahad Baig**.
- **“Penile Fracture with Urethral Injury”** — presented by **Muhammad Daim Jawaid**.
- **“A New Bladder in a Bladder”** — a distinctive clinical case presented by the team, with the case provided by **Dr. Adeel Anwaar**.

The conference provided RLMC students with an opportunity to engage with researchers, clinicians, and academic experts while strengthening their skills in **research presentation, scientific communication, teamwork, and clinical case documentation**.

The **Research Cell, RLMC** congratulates the students on their achievement and appreciates **Dr. Adeel Anwaar** for facilitating access to clinical cases that supported their academic and research activities.

This accomplishment reflects RLMC's growing culture of **student-led research, academic collaboration, and participation in national research platforms.**
